MATERIAL SAFETY DATA SHEET

SECTION 1: Identification of the substance/mixture and of the supplier

Product name: Guar Gum

Manufacturer/Supplier Trade name:

Manufacturer/Supplier Article number: Elchemy

Recommended uses of the product and uses restrictions on use:

Supplier Details:

Supplier: Elchemy

Company Address: A-448, Pocket 2, Sector 8, Rohini, New Delhi, Pin Code: 110085, India

Company Web Site: www.elchemy.com

Emergency Phone Number: +919867099519 (24 Hrs)

Email Id: info@elchemy.com

SECTION 2: Hazards identification

Classification of the substance or mixture:

Not classified for physical or health hazards under GHS.

Signal word: Warning

Hazard statements:

Precautionary statements:

- If medical advice is needed, have product container or label at hand
- Keep out of reach of children
- Read label before use

+91 98670 99519

-
- Do not eat, drink or smoke when using this product

Other Non-GHS Classification:

SECTION 3: Composition/information on ingredients

Created by Global Safety Management, Inc. -Tel: 1-813-435-5161 - www.gsmsds.com

Safety Data Sheet

according to 29CFR1910/1200 and GHS Rev. 3

Effective date: 10.24.2014 Page 2 of 6

Ingredients:

Percentages are by weight

SECTION 4: First aid measures

Description of first aid measures

After inhalation: Loosen clothing as necessary and position individual in a comfortable position. Move exposed to fresh air. Give artificial respiration if necessary. If breathing is difficult give oxygen. Get medical assistance if cough or other symptoms appear.

After skin contact: Rinse/flush exposed skin gently using soap and water for 15-20 minutes. Seek medical advice if discomfort or irritation persists.

After eye contact: Protect unexposed eye. Rinse/flush exposed eye(s) gently using water for 15-20 minutes. Remove contact lens(es) if able to do so during rinsing. Seek medical attention if irritation persists or if concerned.

After swallowing: Rinse mouth thoroughly. Do not induce vomiting. Have exposed individual drink sips of water. Seek medical attention if irritation, discomfort or vomiting persists. Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed:

Irritation, Nausea, Headache, Shortness of breath.

Indication of any immediate medical attention and special treatment needed:

US Office

16192 Coastal Highway, Lewes,
DE 19958

If seeking medical attention, provide SDS document to physician. Physician should treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Suitable extinguishing agents: Use water, dry chemical, chemical foam, carbon dioxide, or alcohol-resistant foam.

For safety reasons unsuitable extinguishing agents:

Special hazards arising from the substance or mixture:

Combustion products may include carbon oxides or other toxic vapors. Thermal decomposition can lead to release of irritating gases and vapors.

Advice for firefighters:

Protective equipment: Use NIOSH-approved respiratory protection/breathing apparatus.

Additional information (precautions): Move product containers away from fire or keep cool with water spray as a protective measure, where feasible. Use spark-proof tools and explosion-proof equipment. Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. Avoid inhaling gases, fumes, dust, mist, vapor, and aerosols. Avoid contact with skin, eyes, and clothing.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Ensure that air-handling systems are operational. Ensure adequate ventilation.

Environmental precautions:

Prevent from reaching drains, sewer or waterway. Collect contaminated soil for characterization per Section 13. Should not be released into environment.

Methods and material for containment and cleaning up:

Keep in suitable closed containers for disposal. Wear protective eyewear, gloves, and clothing. Refer to Section

Created by Global Safety Management, Inc. -Tel: 1-813-435-5161 - www.gsmsds.com

8. Exposure controls/personal protection

Always obey local regulations. Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Evacuate personnel to safe areas.

Reference to other sections:

SECTION 7: Handling and storage

Precautions for safe handling:

Minimize dust generation and accumulation. Follow good hygiene procedures when handling chemical materials. Refer to Section 8. Do not eat, drink, smoke, or use personal products when handling chemical substances. Avoid contact with eyes, skin, and clothing.

Conditions for safe storage, including any incompatibilities:

Store away from incompatible materials. Protect from freezing and physical damage. Keep away from food and beverages. Provide ventilation for containers. Avoid storage near extreme heat, ignition sources or open flame. Store in cool, dry conditions in well-sealed containers. Store with like hazards.

SECTION 8: Exposure controls/personal protection

Control Parameters:	No applicable occupational exposure limits
Appropriate Engineering controls:	Emergency eye wash fountains and safety showers should be available in the immediate vicinity of use/handling. Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapor or dusts

	(total/respirable) below the applicable workplace exposure limits (Occupational Exposure Limits-OELs) indicated above. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). Use under a fume hood.
Respiratory protection:	Not required under normal conditions of use. Where risk assessment shows air-purifying respirators are appropriate use a full-face particle respirator type N100 (US) or type P3 (EN 143) respirator cartridges as a backup to engineering controls. When necessary use NIOSH approved breathing equipment.
Protection of skin:	Select glove material impermeable and resistant to the substance. Select glove material based on rates of diffusion and degradation. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Use proper glove removal technique without touching outer surface. Avoid skin contact with used gloves. Wear protective clothing.
Eye protection:	Wear equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU). Safety glasses or goggles are appropriate eye protection.
General hygienic measures:	Perform routine housekeeping. Wash hands before breaks and at the end of work. Avoid contact with skin, eyes, and clothing. Before wearing wash contaminated clothing.

SECTION 9: Physical and chemical properties

Appearance (physical state, color):	Yellowish-white powder	Explosion limit lower: Explosion limit upper:	Not determined Not determined
Odor:	Not determined	Vapor pressure:	Not determined
Odor threshold:	Not determined	Vapor density:	Not determined

pH-value:	5.5-6.2 (1% sol.)	Relative density:	Not determined
Melting/Freezing point:	255 C	Solubilities:	soluble
Boiling point/Boiling range:	Not determined	Partition coefficient (n-octanol/water):	Not determined
Flash point (closed cup):	Not determined	Auto/Self-ignition temperature:	Not determined
Evaporation rate:	Not determined	Decomposition temperature:	Not determined
Flammability (solid, gaseous):	Not determined	Viscosity:	a. Kinematic: Not determined b. Dynamic: Not determined
Density: Not determined			

SECTION 10: Stability and reactivity

Reactivity: Nonreactive under normal conditions.

Chemical stability: Stable under normal conditions.

Possible hazardous reactions: No under normal processing

Conditions to avoid: Incompatible Materials.

Incompatible materials: Strong acids. Strong bases. Oxidizing agents.

Hazardous decomposition products:

SECTION 11: Toxicological information

Acute Toxicity:		
Oral:	IUCLID	LD50 Rat >3750 mg/kg
Dermal:	NLM_CIP	LD50 Rabbit > 3600 mg/kg
Chronic Toxicity: No additional information.		
Corrosion Irritation: No additional information.

SECTION 12: Ecological information

- **Ecotoxicity**
- **Persistence and degradability:**
- **Bioaccumulative potential:**
- **Mobility in soil:**
- **Other adverse effects:**

SECTION 13: Disposal considerations

Waste disposal recommendations:

Contact a licensed professional waste disposal service to dispose of this material. Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage. It is the responsibility of the waste generator to properly characterize all waste materials according to applicable regulatory entities (US 40CFR262.11). Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations. Ensure complete and accurate classification.

SECTION 14: Transport information

- **UN-Number:** Not Regulated.
- **UN proper shipping name:** Not Regulated.
- **Transport hazard class(es):**
- **Packing group:** Not Regulated
- **Environmental hazard:**
- **Transport in bulk:**
- **Special precautions for user:**

- **RCRA (hazardous waste code):** None of the ingredients is listed
- **TSCA (Toxic Substances Control Act):** 9000-30-0 Guar Gum: TSCA XU: substance exempt from reporting
- **CERCLA (Comprehensive Environmental Response, Compensation, and Liability Act):** None of the ingredients is listed
- **Proposition 65 (California):**
 - Chemicals known to cause cancer:** None of the ingredients is listed
 - Chemicals known to cause reproductive toxicity for females:** None of the ingredients is listed
 - Chemicals known to cause reproductive toxicity for males:** None of the ingredients is listed
 - Chemicals known to cause developmental toxicity:** None of the ingredients is listed

Canada

- **Canadian Domestic Substances List (DSL):** All ingredients are listed.
- **Canadian NPRI Ingredient Disclosure list (limit 0.1%):** None of the ingredients is listed
- **Canadian NPRI Ingredient Disclosure list (limit 1%):** None of the ingredients is listed

SECTION 16: Other information

This product has been classified in accordance with hazard criteria of the Controlled Products Regulations and the SDS contains all the information required by the Controlled Products Regulations. Note: The responsibility to provide a safe workplace remains with the user. The user should consider the health hazards and safety information contained herein as a guide and should take those precautions required in an individual operation to instruct employees and develop work practice procedures for a safe work environment.
